

INSTRUCTIONS for Quality Rating System (QRS) TRAINERS

PLEASE READ BEFORE PRINTING

Explanation:

In order to properly measure the effect of this training on child care providers' feelings and understandings about the QRS, we would like all participants of training sessions to complete a pre- and post-training questionnaire. No identifiable information will be collected, so each participant will be completely anonymous. Each participant will be assigned one unique questionnaire number (QN) that must appear both on their pre- and post-test. After the training session is complete, trainers will fill out the "Training Summary" form (right side of this page) and send it with ALL of the completed pre- and post-training questionnaires to the address listed below.

Step-by-step instructions:

1. Estimate the number of questionnaires you think you will need for your training plus a few extras.
2. Print from this document: page 1 to the number you calculated in step #1. (You probably do not need to print all 50 pages!)
3. When preparing your handouts for the session, cut each page in half, placing the pre-training questionnaire in the front of each packet and the post-training questionnaire in the back of each packet. Ensure that each packet has a unique questionnaire number (QN), and that the same QN is printed on the pre- and post-training questionnaire for each packet.

Note: In case you need to make copies from a copy machine, make sure that you change the QN on the copied sheets to be unique (e.g. 101, 102, 103...), and that the same QN appears on both the left and right hand side of each sheet.

4. Ask each participant to complete a pre-training questionnaire before reading materials or participating in the training.
5. Collect each participant's pre-training questionnaire immediately after it is completed.
6. After the QRS training is completed, ask each participant to complete the post-training questionnaire.
7. Collect the post-training questionnaires.
8. The trainer should complete the Training Summary form.
9. Mail the Training Summary form and all pre- and post-training questionnaires to:
